

TRAINING & ASSESSING

GKI Group, in partnership with KI Training and Assessing provides High Risk and Nationally Accredited training to the Mining, Civil and Industrial Sectors.

Highly qualified and industry experienced trainers are engaged to conduct all of our training needs. The extensive knowledge of our trainers is complimented by our state of the art training facilities which provide a safe and controlled environment for completion of all training courses.

**KI Training and Assessing
services include:**

- High Risk Licenses
- VOC's
- Work Safely at Height
- Enter and Work in a Confined Space

In addition, remote site based training services are available and can be scheduled at short notice if required. We can also tailor training packages at our clients workplaces providing the flexibility for employees to complete their training in a familiar environment.

KI Training and Assessing strives to meet all training needs through our commitment to providing clients and individuals with a quality training experience. We continually assess and review our training practices to ensure our services remain at the highest standard in the field.
